Subject: Thanks

Craig,
Thanks again for bringing the extra snowmobile and equipment for the Division.

I hope you were able to get your questions and concerns addressed. If you have anymore questions, please let me know and I'll see what I can answer. As far as that macro/fish survey completed during the EIS, I'll go back to the report and let you know what I find out.

By the way, did you see the herd of elk that we spooked as we were getting closer to the elusive peacock destination? While we were in the channel Mike Davis was somewhere on the bluff and saw another herd of elk as well as three bulls near Quitchapa (sp?) Creek. One of the bulls had one large and one small antler.

Thanks again for coordinating the equipment so I could attend the tour.

I'll let you DWR know when we plan to restart monitoring.

Cheers,
Jerriann
